

CANES DEER

Quality Genetics

5th Annual Sale

Wednesday 17th December 2014
Viewing 3.30pm - Auction 5.00pm

441 Plateau Road, Reporoa
malcolm@canesdeer.co.nz www.canesdeer.co.nz

Location

Canes Deer Farm is located at 441 Plateau Road, Reporoa. 40 minutes drive from Rotorua or 30 minutes from Taupo. Once you are on the Broadlands Road which runs between Reporoa and Taupo, take Strathmore or East Rd and travel to the end, where they join in a Y junction and run into Plateau Road. We are 4.4km from this Y junction on the left.

Introduction

Hello and welcome to the fifth annual sale at Canes Deer.

The stags are coming on well. They will look a picture by sale day. We have a variety of stags and hinds for sale by a wide range of sires. No stags have been retained so they are the best we have.

We are pleased to hear feedback that our stags are shifting well and performing on a variety of properties. Many are cutting heavy velvet as well as growing high scoring attractive trophies. The demand for both of these commodities is strong which is encouraging. I have always believed that those that have stuck with the deer industry will be rewarded and it is good to see that finally happening.

The yearling hinds on offer are from many of our proven hinds, many are bred by ET and have sons that have been top stags in this or previous sales or have been retained as sires at Canes Deer.

All going well on sale day we will run in some of our young sires for your viewing.

We hope you enjoy the sales and look forward to hosting you at Canes Deer on the 17th from 3.30pm for viewing followed by the auction from 5pm. Refreshments and a BBQ will follow the sale.

Kind Regards

Kathy and Malcolm Cane

Conditions of Sale

1. The sale will be conducted by PGG Wrightson with the conditions of sale as set down by the Stock and Stations Agents Association, a copy of which is exhibited in the office on sale day.
2. Each lot becomes the purchaser's property and risk at the fall of the hammer.
3. Warranties and Insurance are covered under separate headings.
4. Terms are strictly cash unless prior arrangements are made with the auctioneers. Accounts not paid within 14 days of sale shall bear interest, at current rate per annum from the date of sale.
5. The sale is conducted exclusive of GST.
6. A buyers commission of 4% is payable to non-participating companies and recognised independent agents introducing and accompanying purchasers to the sale providing prior arrangements [No later than 24hrs prior to sale] are made with PGG Wrightson.
7. Intending purchasers are required to register with the auctioneers prior to the commencement of the sale.
8. Delivery dockets must be signed, giving explicit transport, dehorning and any insurance instructions.
9. All Deer held for purchaser's on the vendors property will be held at the owners risk.
10. Horning of all stags (at owners risk) will be carried by the vendor prior to delivery unless requested otherwise (see clause 11) All velvet remains the property of the vendor unless arranged otherwise.
11. Any buyers wanting antlers grown out must state this clearly on documentation and arrange with the vendor please.
12. No animals, embryos or semen sold by Canes Deer, or their germplasm, any subsequent progeny or germplasm, including the semen and germplasm of that progeny may be supplied to a third party without the written permission of the stud.
13. This condition does not affect normal commercial deer farming or stud farming or the normal sales of semen or embryos as it only applies to entities with the primary function of commercial semen/germplasm activities.
14. It is a condition of sale of any animals, embryos, germplasm or semen sold by Canes Deer that the purchaser agrees to include the following clause as a condition of any subsequent sale or gift of any animal, embryo, semen, germplasm or subsequent progeny or germplasm to a third party- "the purchaser acknowledges that it will not supply any animals, embryos, semen or germplasm to any commercial semen/germplasm marketing or sales entity, and will ensure that this clause is inserted as a condition of any sale or gift of any animals, embryos, semen or germplasm."

Insurance

PGG Wrightsons AON insurance available on the day.

TB Status

C10

Johnes Status

Absaloot
Charlie Mac Son 9265

Matthew 20 Nov 2014

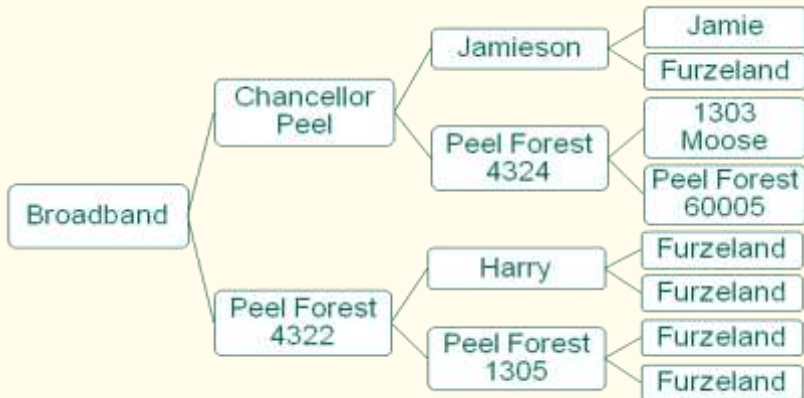

Odysseus

Odysseus was a good natured stag who had the attractive trophy style antler much sought after in the industry, and he is certainly passing this on. We are thrilled with his offspring and anyone serious about trophy genetics should consider his bloodlines. Royal tynes are exceptionally long, very strong in bey and trey and main beam length of 45/43" Sadly no longer with us but his strong genetics will guarantee his legacy continues for many years to come .

Age	Points	Score	Span
1 yr	11x15	26	
2 yr	14x15	29	355
3 yr	21x19	40	461
4 yr	17x17	34	484
5 yr	18x17	35	529
6 yr	19x21	40	603
7 yr	18x21	40	638 30"
8 yr			617 30"
9 yr	18x22	40	702 31"

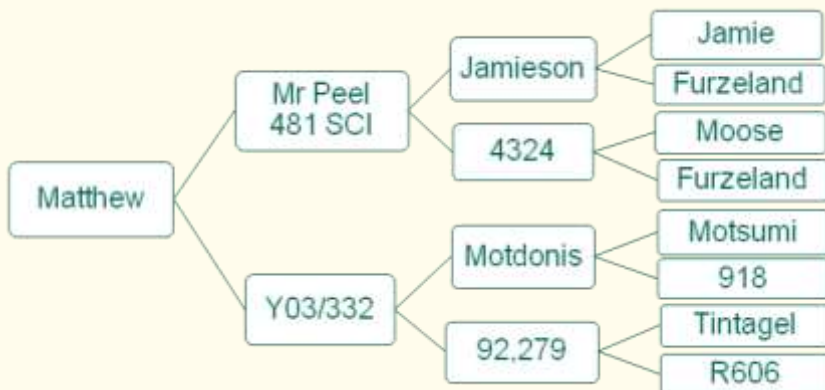

Broadband

Broadband was a magnificent Pure Furzeland Chancellor Peel son. His span at 7yrs of 34" and spread of 62" are particularly wide for a Furzeland Stag making him a great option if you want to increase width in your herd. His multi pointed open tops score very well. He had a most fantastic cruisy temperament and this trait is apparent in all his offspring too.

Age	Points	Score	Span	Spread
4 yr	36	468		
5 yr	38	503		
6 yr	38	509		
7 yr	37	552	34"	62"
8 yr	37	566		
9 yr	38	585		

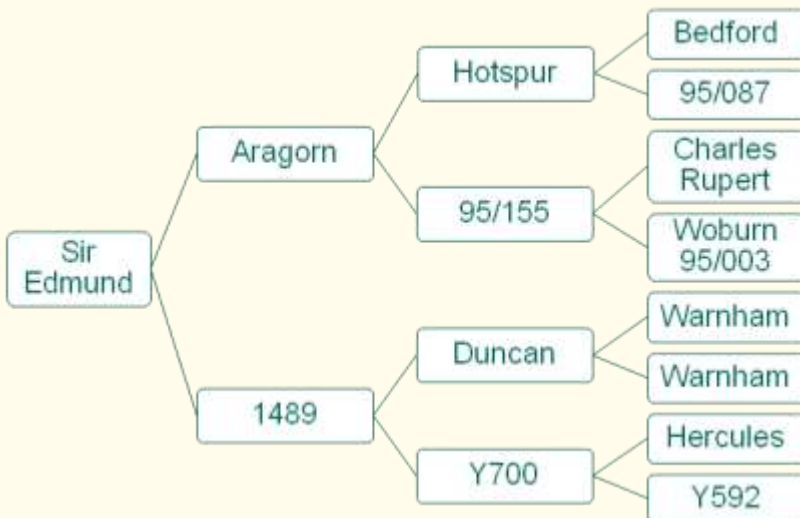

Matthew

Matthew is coming up 8 years old and has certainly got the wow factor required by the trophy industry. He scored 703 IOA at 7 yrs despite some delayed growth on one side due to a late button drop which had to be manually removed. He should score even better this year without that issue.

Age	Points	Span	Score
2 yr	27		
3 yr			438
4 yr	42	30" Int	551
5 yr	39		594
6 yr	48		638
7 yr	46	35"	703

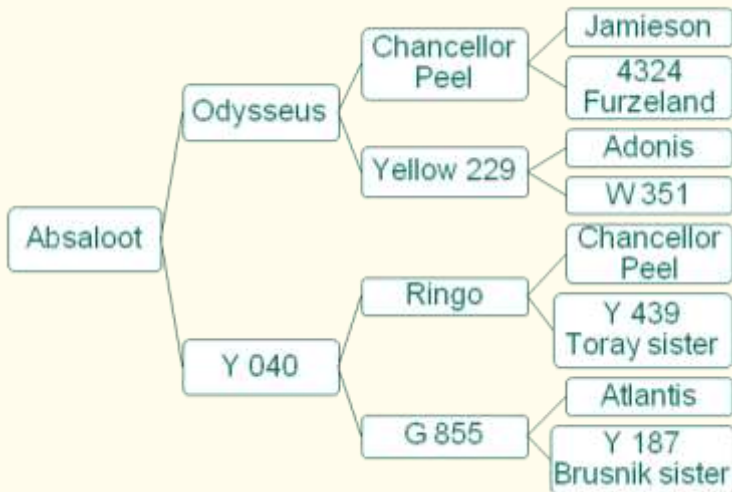

Sir Edmund

We used Sir Edmund as a sire because I think he is one the best pure Warnham stags ever produced by Stanfield's Stud. To utilise a 50" main beam length without the use of eastern blood was the main attraction.

Age	Score
6 yr	559

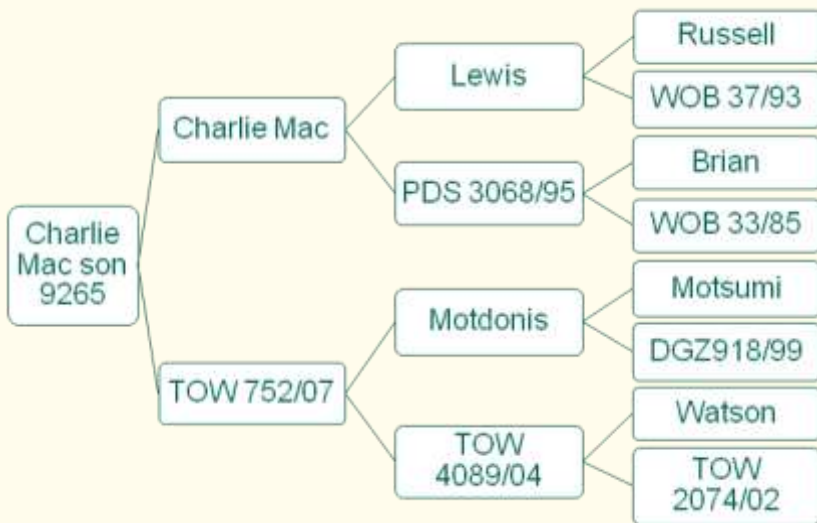

Absaloot

Absaloot was purchased as a replacement for Odysseus. We saw similar aspects in his antler with the added bonus of new blood from Black Forest hinds on his dam line. We are expecting him to exceed 600 IOA this year at 6 years. We are thrilled with his sons.

Age	Points	Score
4 yr	42	540
5 yr	damaged	

Charlie Mac son 9265

Charlie Mac son 9265 was purchased from Foveran in 2012. We liked the heavy beam and wide aspect of his antler. He was used as a back up stag to our AI programme that year.

Age	Score
4 yr	502

Malibu

Ody II

Robstar

Infinity

Norton II

Malibu - 20 Nov 2014

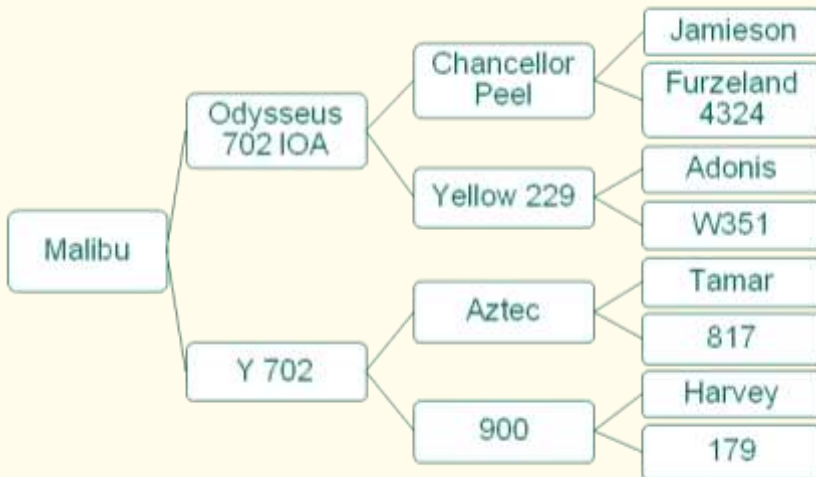

Ody II - 20 Nov 2014

Malibu

20 Nov 2014

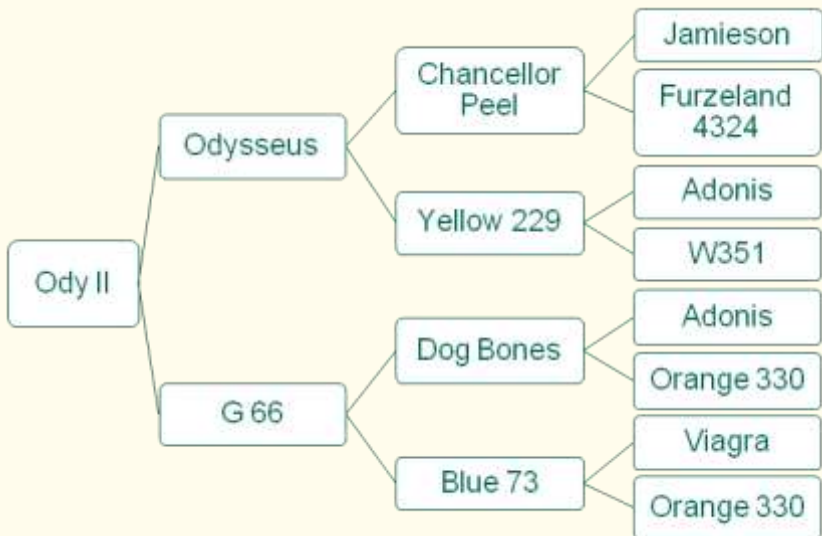

Malibu is a fine example of the Odysseus/Woburn cross that really seems to work. Dam 702's breeding of Aztec over a full sister to Kane has produced consistently top stags for us.

Age	Score IOA
4yrs	565

Ody II

20 Nov 2014

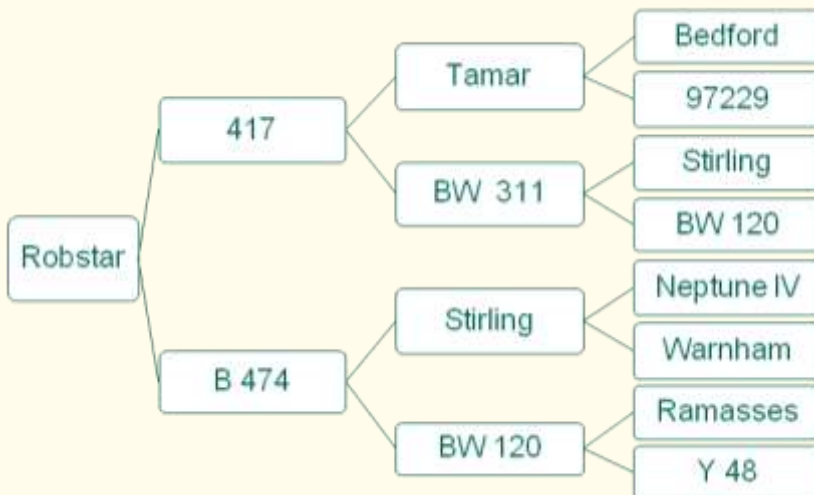

Ody II is an amazing stag. Huge in the body with antlers to match. 45" main beams and 35" span with huge long tops @ 4 years.

This year his antler looks markedly bigger. I really rate this guy.....hence his name.

Age	Score
4 yrs	575

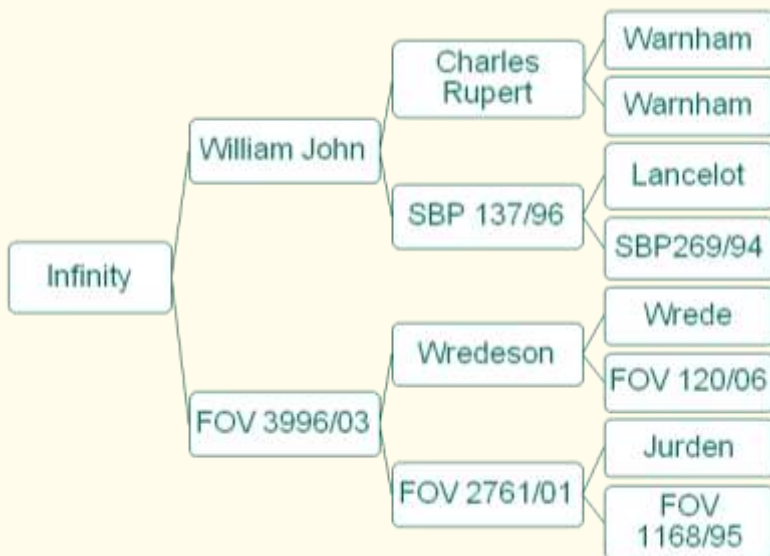

Robstar

Robstar was discovered in the trophy mob last year. We decided he was too good to send off at 5 yrs with a phenomenal score of 643 IOA. He cut 6.8kg of velvet at 4 yrs. He has tremendous mass to his antler and we look forward to his progeny.

Age	Score
5 yrs	643

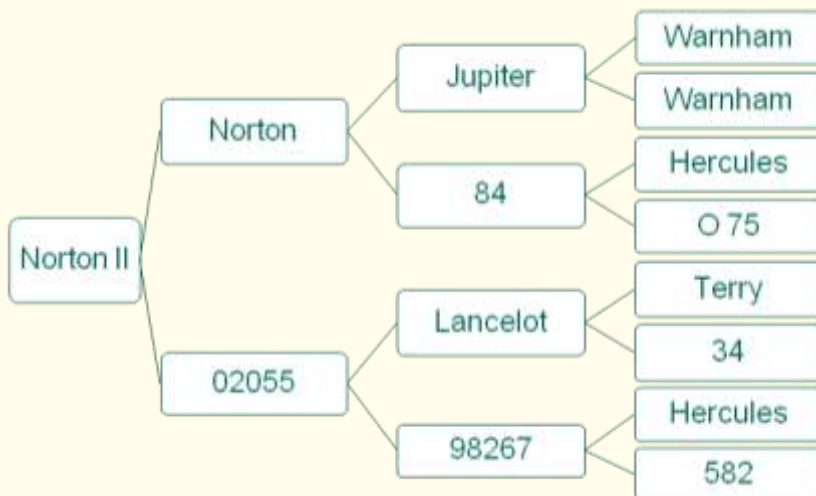

Infinity

Infinity has an impressive head with huge bottom tynes, and was purchased last year to bring in new genetics to cross with some of our Odysseus daughters. He is a German/Warnham cross and we look forward to seeing the results of this new mix.

Age	Score
7yr	640

Norton II

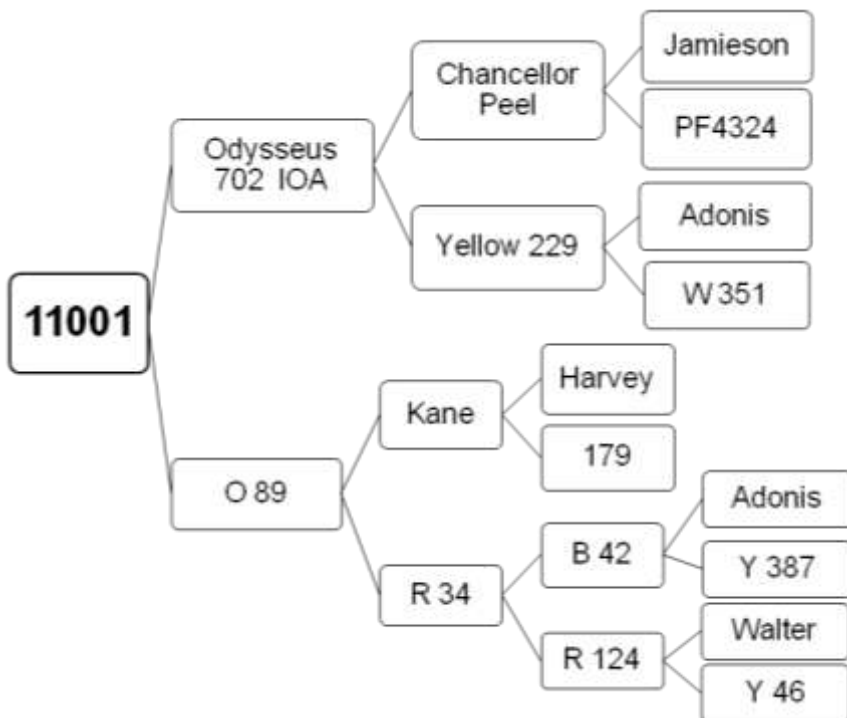

We have recently purchased Norton II after admiring him from afar for some time. His sons have consistently been very good at Stanfield's annual sale and we are sure the injection of pure Warnham genetics will have a positive effect on our herd.

Age	Points	Score
4 yr	34	518
