Location

Canes Deer Farm is located at 441 Plateau Road, Reporoa. 40 minutes drive from Rotorua or 30 minutes from Taupo. Once you are on the Broadlands Road which runs between Reporoa and Taupo, take Strathmore or East Rd and travel to the end, where they join in a Y junction and run into Plateau Road. We are 4.4km from this Y junction on the left.

Introduction

Hello and welcome to the 9th Annual Canes Deer Sale. We hope you have all had a good year.

Kath and I have been farming deer for 33 years now and it has to be said, there has never been a better time to be a deer farmer. It is now the second year we have been able to comment on record venison returns, near record and stable velvet returns, and a steady demand for quality trophies. All the ducks in a row at the same time! And what is really heartening is that this situation is ripe for attracting new entrants into the industry. It is really great to see some younger people interested in the future of deer farming

So with all of that, there has also never been a better time to invest in quality sire stags and breeding hinds to improve the genetic base and profitability on your own farms.

We have a good selection of stags on offer again this year. with something for everyone. Plenty of nice clean velvet heads, along with the right goods to yield extra value at the end of their lives as viable trophies.

It's great to get feedback from farmers on the stags purchased in previous sales, confirming we are on the right track, not only with trophies, but also with velvet weights. Matthew's son Lot 4, Tag 168 from last years sale cut a very respectable 9kg of velvet at 4yrs.

If you have any questions or queries on any of the animals in the catalogue, please don't hesitate to phone.

We look forward to seeing you on sale day. In the meantime we'd like to take this opportunity to wish everyone a very Merry Christmas, and a Happy and Healthy 2019.

Warm Regards

Conditions of Sale

1. The sale will be conducted by Rural Livestock Ltd with the conditions of sale as set down by the Stock and Stations Agents Association, a copy of which is exhibited in the office on sale day.
2. Each lot becomes the purchaser's property and risk at the fall of the hammer.
3. Warranties and Insurance are covered under separate headings.
4. Terms are strictly cash unless prior arrangements are made with the auctioneers. Accounts not paid within 14 days of sale shall bear interest, at current rate per annum from the date of sale.
5. The sale is conducted exclusive of GST.
6. A buyers commission of 4% is payable to non-participating companies and recognised independent agents introducing and accompanying purchasers to the sale providing prior arrangements [No later than 24hrs prior to sale] are made with Rural Livestock Ltd
7. Intending purchasers are required to register with the auctioneers prior to the commencement of the sale.
8. Delivery dockets must be signed, giving explicit transport, de-velvetting and any insurance instructions.
9. All Deer held for purchaser's on the vendors property will be held at the owners risk.
10. Velvetting of all stags (at owners risk) will be carried by the vendor prior to delivery unless requested otherwise (see clause 11)
11. Any buyers wanting antlers grown out must state this clearly on documentation and arrange with the vendor please.
12. No animals, embryos or semen sold by Canes Deer, or their germplasm, any subsequent progeny or germplasm, including the semen and germplasm of that progeny may be supplied to a third party without the written permission of the stud.
13. This condition does not affect normal commercial deer farming or stud farming or the normal sales of semen or embryos as it only applies to entities with the primary function of commercial semen/germplasm activities.
14. It is a condition of sale of any animals, embryos, germplasm or semen sold by Canes Deer that the purchaser agrees to include the following clause as a condition of any subsequent sale or gift of any animal, embryo, semen, germplasm or subsequent progeny or germplasm to a third party- "the purchaser acknowledges that it will not supply any animals, embryos, semen or germplasm to any commercial semen/germplasm marketing or sales entity, and will ensure that this clause is inserted as a condition of any sale or gift of any animals, embryos, semen or germplasm"

Guarantee

Should a stag prove to be infertile from natural causes in the first year it will be replaced or a full credit given for use at a subsequent Canes Deer Sale. In any such case the seller will not be held responsible for loss of production or consequential losses as a result of infertility. Notification of any dissatisfaction must be made within 12 months of date of sale. Canes take all care and no responsibility for deer held prior to transporting to purchaser. We recommend you insure your purchase.

Odysseus

Odysseus was a good natured stag who had the attractive trophy style antler much sought after in the industry, and he certainly passes this on. We are thrilled with his offspring and anyone serious about trophy genetics should consider his bloodlines. Royal tynes are exceptionally long, very strong in bey and trey and main beam length of 45/43". His strong genetics will guarantee his legacy continues for many years to come.
